Letter From the Principal's Desk

Dear Schola Nova Families,

As another successful term comes to an end, we take great pride in the progress our students have made and the many milestones they have achieved throughout the year. The successful completion of the final examinations marks the beginning of another year filled with new opportunities and possibilities.

As the summer break begins, we hope our students enjoy quality time with their families, create lasting memories, and return refreshed for the new term. To keep them meaningfully engaged during the holidays, we have designed summer assignments that encourage creativity, independent thinking, and skill development in enjoyable ways.

At Schola Nova, we believe that education must keep pace with a rapidly changing world. Our role is not only to teach children what they need today but also to equip them with the skills and experiences that will help them succeed tomorrow.

With this vision in mind, we are delighted to introduce a Robotics Programme under our STEAM initiative, an exciting addition to our curriculum. This programme will provide students with hands-on exposure to robotics, innovation, and problem-solving. What makes it particularly exciting is its progressive structure. As students advance through the grades, they will encounter new concepts and increasingly challenging tasks that build upon previous learning. The programme evolves with the learner, creating a meaningful and engaging experience at every stage. We believe it will spark curiosity, creativity, and a genuine interest in technology.

We are equally proud to launch a First Aid Programme designed to equip students with practical life-saving skills. The ability to respond calmly and confidently in an emergency is invaluable. Like our Robotics Programme, this initiative follows a progressive model, enabling students to expand their knowledge and abilities as they move through the grades. Through this programme, students will develop skills that can make a real difference both inside and outside the classroom.

These initiatives reflect our commitment to providing learning experiences that extend beyond traditional academics. We look forward to welcoming our students back for a new term filled with discovery, innovation, and exciting opportunities.

Warm regards,
Team Schola Nova
